

EGOCREANET - PROFILE-2011-

- EGOCREANET is a non profit telematics organization, of social utility founded 1997 and located in Sesto F.- FIRENZE (Italy) c/o the Chemistry Department of the University of Florence (IT) Street- Lastruccia 3 – (I) 50019 -SESTO F.no- Firenze- (IT)
- Phone: +39/055-4573135 Fax: +39/055-4573385 ; E-mail: EGOCREANET2011@gmail.com ; WEB: <http://www.egocreanet.it> <http://www.egocrea.net/>; <http://www.edscuola.it/lre.html>
 - Fiscal Code: 94064580486; VAT: 02211440488; Cordis-PIN: 959882416
 - **President and Legal Manager of EGOCREANET :**
- Dr. PAOLO MANZELLI , Mobile: +39/335-6760004 ; E-mail: pmanzelli.lre@gmail.com

The Telematics Association named “**Global Network of the Expansion of Observatory on Creativity**” (in achronim **EGOCREANET-**) is an Italian non-profit organization (ONLUS) , working in Joint Venture with the Laboratory of Education-Research which aim to contribute to the international development the Knowledge Society, by providing to an exchange information and aiming to enhancing innovation regarding R&D interactive transfer to industry and methods and models for improving trans-disciplinary education

Vision : EGOCREANET’s Vision is based on develop projects and public initiatives and events to enhance a cooperative planning process for sharing innovation in R&D and Education fields, through intensifying and developing the interactions in ITC platforms among all stakeholders and to ensure by means multiple communication channels : information, choice and empowerment about all forms of trans-disciplinary innovation in science technology and art and humanities , as a basic need of creative development of the global knowledge society.

Mission : The EGOCREANET , aggregate highly talented researchers with specific skills to favor the above complex scenario of such vision. So that the activities of Egocreanet-2011 are based on improving open innovation strategies on conceptual innovation on a spectrum of R&D contents spreading from , **Neurology and Education , Life- Sciences, and Food Quality, Bio- and Nano-technologies**, etc.. The high building capacity of EGOCREANET emerges from the relational interactive ability in creating alliances with professional groups and other stakeholders, in order to realize various Regional or European and International endeavours, focused both, to develop dissemination activities of new knowledge in science and technology and to implement new trans-disciplinary methods of training in long distance and permanent education.

Organization : The multitude of backgrounds and interests of these researchers , alliances and stakeholders enable EGOCREANET 2011, as virtual platform (**Virtual Innovation Organization**) , to draw a more complete picture of opportunities , benefits and challenges of the deployment of ICT in the fields of advanced science and technology, thereby to identify topics and issues requiring particular attention to the future and further developments at Regional or European and International level of innovation

EGOCREANET committments for the year 2011

– A) At European Level : Promotion and realization of training multidisciplinary programs and ITC-based dissemination activities focused on to participate to the Supporting Project “Nano-Education in Europe”, (in achronim **NEED**) see: http://www.edscuola.it/archivio/lre/NEED_PRELIMINARY_1.pdf)- co-organized with the cooperation of the Consortium CSGI <http://www.csgi.unifi.it/~csgi/index.html> and other stakeholders.

The Coordinator of “**NEED**” proposal will be Prof. Albert Duschl <albert.duschl@sbg.ac.at>, Department of Molecular Biology Division Allergy and Immunology, Biochemistry, University of Salzburg, Austria

-B) At Regional Level: In an open cooperation with the **Regional Pole of Nano-Tecnology for the Market** (<http://www.gonews.it/pdf/nanoxm.pdf>), co-ordinated by ASEV Agency (www.asev.it), EGOCREANET-2011 will co-organize in Tuscany some public events and scouting activities to enhance human resource development and project management promotion, by means professional guidance and consulting of young scientist (male and females) in order to favouring to create reliable conditions to find work in industry.

History

- EGOCREANET was founded the 14/April/1997 and from Dec/15/2008 has changed the initial status of the EGOCREANET Association from a) voluntary **cultural No-for -profit service to enhance creativity in art and science**, to b) the new statute of **Telematics Association No-for Profit, oriented to give contribution to improve Research& Development and Innovation** .
- This new organization at the year 2011, represents about 30 stakeholders and individuals coming especially from Italy but also from various countries in and outside Europe.
- In particular an International Affiliations born in 1999 is named –“**EGOCREANET-PERU**”:
- President; Miguel Molla <albedoperu@gmail.com>
see - <http://www.geocities.com/egocreanetperu/>
- More recently (April/15/2011) gives adhesion to EGOCREANET the “Quantum Art Group in Italy” (in achronim :QAGI/Egocreanet.: <https://sites.google.com/site/quantumartgroupitaly/>,-
Co-ordinated by the Artist Roberto Denti <roder53@gmail.com>
-
- **Participation to European Projects**
-
- – 1) Pilot project LEONARDO 2002-2003 –“OGM and Bio Pollution Certification”
see : <http://food-traceability.net/> e in <http://www.edscuola.it/LRE.html>
- 2) Partner Leonardo project “ FOR-CO-PRECA-NET” –2002-2005
...see: <http://www.narnia.it/forcoprecanet/>
- 3) Partner of Minerva European project)–(2002-2004-on e.Learning
see : <http://www.narnia.it/lefo/>
- Promoter of the Support action KBBE.2010.2.2-03 “ Food to Brain and Brain To Food” ,
- Not Financed by EU-Commission: see: http://www.egocrea.net/MALNUTRITION_IN_AFRICA.pdf

Legenda

V.I.O. = Virtual Intermediary Organization
 E = Ente
 i = intermediario di fiducia dell'ente
 d = delegato
