Dear Sir,

I would like to express Seasus New Media's interest to collaborate on the "Mental Change" proposal being submitted under the Citizens and Governance call in FP6. We feel we could make a very valid contribution to your team and the project objectives, especially in the role of a "portal construction firm for the dissemination and the sharing of knowledge by electronic editions" as described in your email dated July 30, 2003.

Our vast experience in the delivery of e-solutions to organisations such as the International Telecommunications Union (www.itu.int) or the Government of Malta (www.gov.mt), and our strong links with the Malta Council for Science and Technology and experience in the Fifth Framework Programme, makes us ideal partners from Malta for your project.

In the past few years we have been actively involved in the field of Knowledge Management and actively participating in R&D projects focused on bridging the Digital Divide. The expertise we have gained through these projects can be a valuable asset for the success of this project.

We would appreciate it if you would consider Seasus New Media in joining this consortium and we are sure we would make a valid contribution to your team and project.

Attached please find our company brochure for your review.

I thank you beforehand for your attention and await your favorable reply.

Regards,

Kenneth Bone
New Media Development Director
